CAREER OBJECTIVE

Ambitious recent graduate, pursuing Software Engineering eager to contribute and expand my knowledge in a Full Stack Developer role. Skilled in technology documentation reading and fast-paced expectations from independent work settings. Adaptable and driven with strong work ethic and ability to thrive in team-based or individually motivated tasks.

SKILLS

- Javascript
- HTML5, CSS, Sass, Styled-Components
- MongoDB
- Express.js
- React.js
- Node.js
- Python
- Java
- Git
- React Router

PROJECTS

Expandable View Student Score Search / React Hooks, JS, HTML, CSS

01/2021 - 01/2021

- Called data from external API using ES6 Async/Await and designed style of display using React Components and plain HTML and CSS.
- App offers expandable-views on each student test score on request. Also provides DOM manipulation by being able to add tags or keywords to each student component.
- Search bar is present, catering to name searches by first or last.

Digital Marketing Landing Page / React, JS, Styled-Components

11/2020 - 12/2020

- A clone of a Digital Advertising Agency's landing page, incorporating any hover or click animations.
- Cloned page showcases use of FlexBox/Grid for consistency in app layout.
- App is built desktop-first and is fully responsive, viewable on all screen devices.

Movie App / MongoDB, Express.js, HTML Templates, CSS

09/2020 - 10/2020

- Full-stack App that makes an external API call and presents movie data via Express.js server-side rendering (SSR), using Handlebars as my HTML template to dynamically present data.
- Non-relational database is MongoDB, providing users CRUD mechanisms, like creating an account with user authentication with persistence.

EDUCATION

University Of Western Ontario

2020

Bachelor: Medical Science and Biology

VOLUNTEER WORK

Lets Talk Science (LTS)

- Been volunteering for 4 years, going to elementary schools offering science workshops to the less privileged.
- Focused visits to be fun and meaningful, but also concurrent with the partnered Teacher's teaching plan.

Heart 4 Hearts (H4H)

- Ran fund-raising events for children with Congenital Heart failure, ranging from bake sales to bar-line bypass tickets.
- Executive Director of the Valentine's Day Rose sale, where I was responsible for determining locations, personnel availability for booth commitment, and handling of cash, earning a grand total of \$784.96 from the single event.
